Elieux License Scheme

Challenge: As a brand licensing business for Elieux, the concept of which is to “examine the true nature people and the earth and beautify it,” our challenge is to develop this project by expanding the ongoing business of licensees.

Purpose and process of License

We are now in the time when artistic sensitivity is highly valued in various businesses, but the present condition of domestic art market is confused and obscure. A brand new world standard project licensing which enhances added value of a creative (artistic) brand is launched by an international planning promoter who has thoroughly considered domestic and international markets. It presents a clear brand concept for the international creative (art) development globally, artistically facilitate a new event award which puts out a refined real message with high quality and high added value, and create a licensing project business.

Ideas within creative (a variety of culture art and music) industry lean towards growth and expansion with a profit-oriented standard, confusing “what kinds of things are really good?” and “what is the truth?” Culture art exists as a fragmented industry which lacks a prominent creative (art) specialized company leading the time as real art. Therefore, it is our mission to create an art market which beautifies people and the earth by hosting a world standard global award to facilitate art, carrying out a creative licensing project and by pursuing the value of true nature.

The process of licensing development : Construct a system for licensees and ELstyle Co., Ltd., assuming the licensing project development

1. By cooperation with the French event company Elstyle Co., Ltd., run the event smoothly taking the flow of Elieux planning office’s business construction process to aim for the development of art.
2. Organize ELstyle Co., Ltd.’s planning project system, and build a licensing project which respects a brand offering creative (artistic) value.
3. Consignment sales will be for products aimed at general public, and directly-managed store (theme park) development will be established with both B to B and products for general public in mind. For those reasons, events will be treated as trail PR / marketing, measuring the scale of license.

Based on the above, preparation will be started in 2 directions initially, and licensing business where both companies carry out as a unit will be developed in early stage.
